

## Proposed Rule Changes

On August 1<sup>st</sup>, the Board approved amending its rules to make the renewal process easier for licensees. Based on the success of the specific course requirements for continuing education under the licensure renewal rules, the Board is pursuing reducing the number of credit hours required for biennial renewal from 40 to 30 clock hours. An additional proposal will remove the requirement to notarize the professional's signature on the renewal packet. The amended rules are expected to be in place early next year.
